EXPERIENCE

Kenzie Academy — *Junior Software Developer*

July 2018 - Present

- Exposed to database creation, OOP, TDD, debugging, troubleshooting, code quality, code review, RESTful APIs, component libraries, standard libraries, virtual machines/containers, data modeling, logging, caching, load balancing, and database sharding.
- Developed web-based applications using React, Redux, JavaScript, HTML, CSS, Python, NodeJS, Express, MongoDB, GitHub, and Agile.
- Developed test cases for identifying bugs in code using VS Code's Debugger.
- Led as Scrum Master for [capstone](#) and [pre-capstone](#) web application projects. Organized the layout and timeline of the projects, supervised team of up to 6 developers, and worked on the design and functionality of the project.
- Prioritized tickets to team members for the capstone and pre-capstone projects using GitHub.
- Used JavaScript framework to sync with APIs for web app deployment.

Kenzie Academy — *Student Coach*

October 2018 - Present

- Mentored students through weekly one-on-ones, whiteboarding sessions, and grading assessments.
- Assisted students with solving problems, fixing bugs, and refining code.

Indianapolis Bar Association — *Junior Software Developer*

January - July 2018

- Coded and designed a [website](#) with a desktop-friendly and mobile-friendly design.
- Used JavaScript, HTML, CSS, and Angular for deployment.
- Designed and developed website based on clients' needs and visions.

Eleven Fifty Academy — *Curriculum Developer and Tester*

March - April 2018

- Tested code for functionality and usability.
- Assisted with curriculum development.
- Developed and designed [capstone](#) using JavaScript, HTML, CSS, Angular, Twilio, and Firebase.
